OBJECTIVE

Motivated B.Tech Information Science graduate seeking an internship or entry-level position to apply strong technical fundamentals, programming knowledge, and problem-solving abilities, while demonstrating a proactive learning attitude and contributing effectively to organizational goals. Eager to gain hands-on industry experience by working on real-world projects and collaborating with experienced professionals. Committed to continuous skill development and delivering high-quality results in a dynamic and growth-oriented environment.

INTERNSHIP EXPERIENCE

Full Stack Developer Intern - SciHubbs (2025) | Hyderabad, India

Worked as a full-stack development intern on real-time project modules. Built and tested frontend and backend components under developer guidance. Understood API integration, authentication handling, and database workflows. Strengthened debugging and clean coding practices. Gained exposure to SDLC and deployment basics.

Intern - A1 Logics (2025) | Mangalore, India

Gained conceptual and practical knowledge in full-stack development. Understood project structure, backend fundamentals, and database flow. Completed guided learning tasks in web development and UI components.

Quality Control Operator | Tata Electronics(09/2022 - 03/2023) | Bangalore, India

Kept accurate records of defective units or products. Inspected machine parts with measuring tools. Operated technical and mechanical equipment and adjusted machine settings according to work cycles. Adhered to safety and clean area procedures to comply with agency and regulatory mandates. Efficiently read and interpreted blueprints and Fed raw materials into machines.

PROJECTS

Proxy Server

Implemented and administrated a custom Squid Proxy Server on a Linux environment to enforce network policy and content filtering, successfully blocking access to a defined list of restricted domains using Access Control Lists(ACLs).

Social Networking Site

Providing a secure Communication within the organization.

HONEYPOT

Useful for gathering basic information, such as the source IP address and the type of attack.

SMART PET FEEDER

The lot project is designed as an automatic pet feeder that dispenses food on a schedule or on-demand via a smartphone app, ensuring a consistent and healthy diet for the pet.

EDUCATION

B.Tech in Information Science and Engineering, NMAMIT, Nitte University

Diploma in Computer Science and Engineering, NRAM Polytechnic, Nitte

TECHNICAL SKILLS

Networking - TCP/IP, OSI Model, DNS, DHCP, NAT, VPN(Basics)

Systems: Windows OS, Linux (Basics), System Installation & Troubleshooting

Cybersecurity: Ethical Hacking Basics, Honeypots, Proxy Server Concepts

IT Support: Hardware & Software Troubleshooting, System Configuration

CERTIFICATIONS

Internal Ideathon of SIH, NMAMIT, NITTE

Data Security, Cisco

Foundations of Cybersecurity, Google

Networking Fundamentals & Network Access, Cisco CCNA (200-301)

LANGUAGES KNOWN

English, Hindi, Kannada, Tulu, Urdu
